MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management Discussion and Analysis ("MD&A") of Tri-River Ventures Inc. ("Tri-River" or the "Company") is dated June 28, 2011, and provides an analysis of the Company's results of operations for the three months ended March 31, 2011. The MD&A has been prepared by management and should be read in conjunction with the unaudited consolidated interim financial statements of the Company for the three months ended March 31, 2011 and the audited consolidated financial statements for the year ended December 31 2010 and the respective notes thereto.

On January 1, 2011, the Company adopted International Financial Reporting Standards ("IFRS") for financial reporting purposes, using the transition date of January 1, 2010. The Financial statements, including required comparative information have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting and IFRS 1, First-time Adoption of International Financial Reporting Standards. Before the adoption of IFRS, the Company's financial statements were prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"). Further information on the IFRS impact is provided in the Critical accounting policies and estimates section of this MD&A and in note 19, Transition to IFRS of the unaudited interim consolidated financial statements for the quarter ended March 31, 2011.

All dollar figures included therein and in the following management discussion and analysis ("MD&A") are quoted in Canadian dollars.

FORWARD LOOKING STATEMENTS

Certain statements made herein, other than statements of historical fact relating to the Company, are forward-looking statements. These include, but are not limited to, statements respecting anticipated business activities, planned expenditures, corporate strategies, participation in projects, the actual nature and scope of any financing transactions, the expected timing and success for receipt of required government approvals, the timing and scope of exploration activities and other statements that are not historical facts. When used in this MD&A, the words such as, "could," "plan," "estimate," "expect," "intend," "may," "potential," "should," and similar expressions, are forward-looking statements. Although the Company believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. Important factors that could cause actual results to differ from these forward looking statements include those described under the heading "Risks and Uncertainties" included elsewhere in this MD&A. The reader is cautioned not to place undue reliance on forward-looking statements.

The Company does not assume the obligation to revise or update these forward-looking statements after the date of this document or to revise them to reflect the occurrence of future unanticipated events, except as may be required under applicable securities laws.

ADDITIONAL INFORMATION

Additional disclosures pertaining to the Company's technical report, management information circulars, material change reports, press releases and other information are available on the SEDAR website at www.sedar.com.

THE COMPANY

The Company was incorporated on March 9, 1992 in Alberta and continued under the laws of British Columbia on July 12, 2005. The Company changed its name from Consolidated H2O Entertainment Corp. to Tri-River Ventures Inc. on July 4, 2007. The Company is currently trading under the symbol TVR on the TSX Venture Exchange as a Tier 2 company.

On January 2, 2008, the Company entered into an agreement with Red Sun Group Holdings Limited ("Red Sun"), an investment holding company incorporated in the British Virgin Islands, the shareholders of Red Sun, and Sichuan Longbao Mining Limited ("Longbao"), a Sino-foreign equity joint-venture company incorporated in Sichuan Province, China, for the acquisition of all of the issued and outstanding shares of Red Sun and the resultant indirect acquisition of up to a 98% equity interest in the Lianlong copper poly-metallic exploration property located in Sichuan Province, China. The acquisition was completed on January 9, 2009.

LIANLONG PROPERTY

Lianlong Project is located on the eastern edge of the Tibetan Plateau in western Sichuan Province, China. The exploration permit covers an area of 8.87 km² in the "Three Rivers" metallogenic province, which contains numerous mines important for the production of silver, gold, copper, lead, and zinc.

Early geological work on the property includes geological mapping, magnetic surveying, and trenching, resulting in the discovery of three parallel, tabular-lenticular mineralized skarn zones. Zone 1 is more than 440 m long and up to 20 m wide containing economically interesting values in copper, silver, lead, zinc, and tin. One of the trenches contains the best interval of 6.29 m assaying 2.86% Copper, 153.6 g/t silver, 5.38% combined lead and zinc, and 1.11% tin. The trenching results without tests in the down dip dimension does not yet allow for the calculation of mineral resources or reserves.

Prior to the Company's acquisition of the Lianlong property, some preliminary exploration work was conducted in 2007 and 2008, including the construction of an 80km access road to the property, geophysical survey, excavation of an 85 m exploration adit designed to test Zone 1, surface sampling and prospecting work. Approximately \$0.80 million was spent relating to the above noted exploration activities.

In 2009, underground exploration was continued. At Zone 1, a horizontal underground adit was excavated approximately 40 meters below the surface, and successfully intercepted the high grade massive sulphide mineralization at 185 meters from the audit portal. Chip samples across the true width of the mineralization were taken and assayed with the following results:

185.8	186.5	0.70	19.70	2.42	0.11	0.17	0.38	

The exploration has so far returned high grade tin content in the mineralized materials in Zone 1. Among all the contained metals, tin has the highest in-situ metal value. As tin mining falls into the prohibited category in the foreign investment catalogue issued by the Chinese government, the company is considering selling the project.

SUMMARY OF RESULTS OF OPERATION

The following quarterly information has been extracted from the Company's unaudited interim consolidated financial statements. All figures are expressed in Canadian dollars.

The loss for Q1 2011 is \$106,909 compared to a loss of \$116,007 for Q1 2010. The office and miscellaneous expenses are \$12,319 for Q1 2011 compared to \$55,657 for Q1 2010, mainly due to the reduced exploration activities on Lianlong project in China. The professional fees are \$41,304 for Q1 2011 compared to \$5,499 for Q1 2010 mainly due to technical consulting costs for valuation of mineral projects in Canada and China.

Cash and cash equivalent at the end of Q1 2011 was \$6,261,180 compared to \$ 2,109,230 at the end of Q1 2010. The increase is mainly due to a \$4,800,000 private placement closed on November 16, 2010.

The total assets at the end of Q1 2011 are \$ 10,886,196 compared to \$6,661,053 at the end of Q1 2010 due to private placement and mining expenses.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position has increased to \$6,261,180 as of March 31, 2011 from \$ 2,109,230 as of March 31, 2010. The increase is due to a \$4,800,000 private placement closed on Nov. 16, 2010.

Commitments and Off-Balance Sheet Arrangements

As of March 31, 2011, other than as described in this report, the Company had no commitments for capital expenditures and no off-balance sheet arrangements.

Share Capital

On November 16, 2010, the Company completed a non-brokered private placement of 12,000,000 units at \$0.40 per unit for gross proceeds of \$4,800,000. Each unit consists of one common share of the Company and one-half of a share purchase warrant. For every warrant held, the holder is entitled to purchase one additional common share in the capital of the Company at \$0.60 per share for a two-year period. Finders' fees of \$213,202 were incurred in connection with this private placement.

As at March 31, 2011, the Company had 32,695,431 common shares outstanding.

RELATED PARTY TRANSACTIONS

During the period three months ended March 31, 2011, the Company paid management fees of \$30,000 (2010 - \$30,000) to a private company controlled by a director of the Company.

Related party transactions were incurred in the normal course of operations and are measured at the exchange amount, which is the amount agreed between the related parties.

USE OF ESTIMATES

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant areas where management judgment is applied include the purchase price allocation relating to the acquisition of Red Sun, the assessment of impairment to the carrying value of the mineral property, the determination of useful lives of equipment for amortization purposes, the fair value of financial instruments, and future income tax liabilities. Actual results could differ from the estimates by a material amount.

CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

There has been no change in the Company's internal control over financial reporting from Jan. 1, 2011 to March 31, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

FINANCIAL INSTRUMENT RISKS

The Company's financial instruments consist of cash and cash equivalents, other receivables, accounts payable, and amounts due to related parties. Cash and cash equivalents, which are measured at face value, representing fair value, are classified as held-for-trading. Other receivables, which are measured at amortized cost, representing fair value, are classified as loans and receivables. Accounts payable, which are measured at amortized cost, are classified as other financial liabilities. The Company's financial instruments are subject to the following risks:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash and cash equivalents. The risk is managed through the use of major financial institutions, which have high credit qualities as determined by rating agencies.

Foreign Exchange Risk

Foreign exchange risk is the risk that the Company will be subject to foreign currency fluctuations in satisfying obligations related to its foreign activities. The Company operates in Canada and China and is therefore exposed to foreign exchange risk arising from transactions denominated in a foreign currency. A one percentage in foreign exchange rate will increase or decrease net income by approximately \$3,557.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flow of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates to its ability to earn interest income on cash and cash equivalents at variable rates. A one percentage change in the interest rate will increase or decrease the net income by approximately \$17,759.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash on hand and raising capital through debt and equity financing as needed.

RISKS AND UNCERTAINTIES

An investment in the Company's common shares is highly speculative and subject to a number of risks and uncertainties. Only those persons who can bear the risk of the entire loss of their investment should participate. An investor should carefully consider the risks described below and the other information filed with the Canadian securities regulators before investing in the Company's common shares. If any of the following risks and those not described below occur, the Company's business, operating results and financial condition could be seriously harmed and investors may be subject to the entire loss of their investment.

Management Discussion & Analysis

For the three months ended March 31, 2011

- a. The Company has a history of losses and anticipates that it will continue to incur losses for the foreseeable future.
- b. The Company has secured an interest in the Lianlong property. The Company operates in China where some laws regarding property titles and permitting can be ambiguous. There is no certainty that the company's properties will remain in good standing
- c. The Company is dependent on several key management personnel. The success of the Company depends on the key executives, and the loss of the service of one or more of such key management personnel could have a material adverse effect on the Company. The Company does not have any key man life insurance.
- d. The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in China and Canada. A significant change in the currency exchange rate between the RMB and Canadian dollar could have a significant effect on the Company's results of operations, financial position or cash flows. Currently, the Company has all its cash and current assets in forms of Canadian dollar. The Company has not hedged its exposure to currency fluctuations, and converted Canadian dollar into RMB as much as required in the exploration and operating activities in China.
- e. Exploration and development of mineral properties with the intent to achieve economic viability, carries a high risk of failure. A small percentage of mineral projects advance to the stage of mining. There is no certainty that the company's exploration activities will result in an economic deposit.

SUBSEQUENT EVENTS

- a. As of March 22, 2011, the Company entered into a Share Exchange Agreement ("Agreement") with Strong Rising International Limited ("Strong Rising") to acquire Strong Rising's wholly owned subsidiary, Taiji Resources Ltd. ("Taiji"), a private company incorporated in the province of Saskatchewan, Canada. Taiji owns potash properties in Saskatchewan. The Company will acquire all of the issued and outstanding shares of Taiji in exchange for 11,360,000 Company shares. The closing of the Agreement is subject to several conditions including obtaining the approvals from shareholders and the TSX-V, completion of a National Instrument 43-101 technical report on Taiji's potash properties, and completion of an audit of Taiji's financial statements for its most recent fiscal year. It is anticipated that the NI43-101 report will be completed and filed in July of this year, and the audit of Taiji's financial statements will be completed in July of this year.
- b. On March 31, 2011, the Company entered into a Purchase and Sale Option Agreement ("Option Agreement") with Sino Spirit Capital Investment Holding Limited ("Sino Investment") to acquire Sino's 100% equity interest in Sino Spirit Group Limited ("Sino Group") which owns a 60% equity interest in Qinghai Lenghu Kunhu Potash Company Ltd. ("Lenghu Potash"). Lenghu Potash owns a mining permit in Qinghai Province of the People's Republic of China, covering a contiguous area of 23.8 km² in the centre of the Kunteyi Salt Lake area, which has a total area of about 200 km². Potash is currently produced from this property. Consideration consists of cash payments of \$11,583,000 (RMB78,000,000) in three installments and share issuances having an aggregate value of up to \$4,455,000 (RMB30 million). The first refundable
